

### **1...SCHOOL ETHOS**

This is a Roman Catholic school and its ethos will therefore reflect the values of its denominations (i.e. love of god and love of every other human being). We will openly accept and respect other denominations and beliefs. The aim of this school is to provide a high standard of education while promoting respect for selves, others and the environment. Children are encouraged to develop, in preparation for life, healthy attitudes towards responsibility, Christian morality, and interpersonal skills. The school promotes co-operation and healthy interaction among teachers, parents, pupils and Board of Management with a view to creating a healthy work ethic. Each Child is valued as a person and is made to feel part of a friendly learning environment.

### **2...WHAT IS RELATIONSHIPS & SEXUALITY EDUCATION (RSE)?**

RSE aims to provide opportunities for children and young people to learn about relationships and sexuality in ways that help them think and act in a moral, caring and responsible way.

People need people. Being part of a family and having friends give us opportunities to love and be loved, to share thoughts and feelings, to belong. But just because we need to get on with others does not mean we automatically know how to. At primary level, RSE aims to help children learn, at home and in school, about their own development and about their friendships and relationships with others. This work will be based on developing a good self-image, promoting respect for themselves and others and providing them with appropriate information.
